VIRTUAL URBAN CHALLENGE- SCAVENGER HUNT

The hunt is on! Explore a nearby city in our new, fun, interactive, and totally seamless virtual version of the original scavenger hunt. Teams will collaborate on Zoom's breakout room feature allowing face to face communication. Teams will utilize their internet as a resource to locate objects, solve riddles, take fun photos, and more! Each challenge is fun and engaging and will keep players on their toes strategizing to win!

Teams earn points for each successfully completed challenge while also learning fun facts about NYC (or customized city of choice). Points are deducted if challenges are skipped, answered incorrectly or use any provided hints. The team with the most points at the end of the challenge will be named the ultimate champion!
