

Win it in a Minute

Inspired by the fast-paced, widely popular television game show **Minute to Win It**, we have developed a dynamic virtual team building experience called **Win It in a Minute**. This interactive program features a curated selection of short, engaging, and accessible games designed for all participants to enjoy. With a high-energy format and rapid pace, this program delivers an exciting and memorable experience from start to finish.

Participants will compete in a series of entertaining and light-hearted challenges, ranging from tossing cards into a mixing bowl, to rolling Oreos down their faces, to constructing self-standing towers using everyday household items.

Some challenges require full team collaboration, while others spotlight individual participants competing on behalf of their teams. Regardless of the format, each game is crafted to be both highly entertaining to watch and enjoyable to play.

Teams are ranked and awarded points based on speed & completion. Once all challenges have concluded, scores are tallied and the team with the highest total is crowned the Win It in a Minute Champions.
